Ultraseal S.A

Wednesday, June 27, 2007

For Attention: Mr Brendon Buys

Re: Letter of Recommendation .

To Whom It May Concern:

This letter is to confirm that Albany Bakery Randfontein operates a fleet of 44 commercial vehicles.

After experiencing problems with punctures and their related call out fees and after hours charges on "Longhaul Routes" the decision was taken to try "Ultraseal". An applicator and product was purchased, the applicator made the installation of the product an easy task. Our longest haul vehicle was first treated with the "Heavy Duty" product. This vehicle travels daily from Randfontein to Potchefstroom and return. We have to date recorded 25311 picture free kilometers.

This saving is quite astounding when one considers that each "call out" for a puncture would have cost in the region of R1500 !!

Please note that I am not endorsing the product as the answer to all problems, but do feel that with the correct application and Tyre Management process unnecessary expenses can be alleviated.

Yours Faithfully

J.I.Sander
