*Prompt Efficient Service*

We are delighted with the success of Ultra Seal, which we took on trail from you earlier this year. It has proved itself to be excellent in containing punctures and keeping tyres properly inflated. We have a waste transfer station where we were having about 3-4 punctures a day. We have ordered more Ultra Seal to do the rest of our vehicles it has saved us pounds on puncture repairs and downtime. I would personally recommend it to anyone

Yours truly,
