Dear Belvin,

I wanted to take a few minutes and write you a letter thanking you for the manner in which you maintain the tires in our fleet. As you well know we have over 1,200 tires on the ground in varying applications. You have worked hard to lower our tire cost to \$.0061 per mile below the national average. Based on the miles we run, that works out to more than \$1,000 per month in savings.

One thing that has really helped is Ultraseal. Before using Ultraseal you would come out and fix approximately 9 flat or slack tires on any given week. Since using this product we are averaging less than 2 flat or slack tires a month. Not to mention the savings in downtime and road calls.

Thank you Belvin, for the care you take of our fleet and the quality of the products and services you provide.

Sincerely,

John Defoor
