Dear Ultraseal:

Just a note to let you know how good your product works. As a tire company that services four waste hauler yards who were having a lot of flats. On one yard alone we had two men working 10 hours per day taking care of their tire needs, mostly flats. Since we started using Ultraseal in their tires, the flats have all but stopped. The yard that had two men in it, now has one working 5 hours per day saving my customers a lot of money and making them very happy.

Just thought you would like to know.
